

HYDRAULIC FILTER CARTS

INTRODUCING THE FC1 FILTER CART

This light and handy filter cart is the perfect solution for maintenance departments. The easy roll dolly has pneumatic tires making maneuvering around the job site nearly effortless. Double spin-on filter heads easily allow the user to configure the cart with a variety of filtering element combinations including water separation.

- ✓ Used Oil Removal
- ✓ System Decontamination
- ✓ New Oil Dispensing
- ✓ Oil Sample Analysis
- ✓ System Flushing
- ✓ Fluid Transfer
